

The Mini-Zena Data Sheet

Description:

The Mini-Zena is a unique device designed to discourage birds from landing on transmission and distribution structures. The perch preventer is molded using black, proprietary blend ABS with UV protection.

Benefits:

- Simple assembly and quick installation using either Stainless strapping, or Lag Bolts on wooden structures.
- Reduces electrocution and circuit outages
- Modular and flexible design fits easily
- Protected runs can be any length
- Replaceable parts – spike also serves as Zena extension
- Round base means no protrusions or ledges to perch on
- Bird safe and environmentally friendly (recyclable)
- Excellent weather and contaminant washing characteristics
- Holes provided in base for 1/4" Lag Bolt installation

Application:

The Mini-Zena Perch Preventer is shipped disassembled. (Base with **7 spikes**)

A complete assembly is ready to mount on steel channels or wooden cross arms in seconds, using either Stainless Steel Strapping or Lag Bolts.

Spikes and bases can be ordered separately.
